# NEVER WATER AGAIN

- **Works on all types of footings.**
- **Won't FREEZE, so you can put it down in the winter months.**
- **Used by the Dept. of Defense for dust control.**
- **Easy to apply.**
- **Can be applied with any type of liquid applicator. NO water is needed.**
- **Non-Slippery, Non-Dissipating, No curing, giving you immediate results.**
- **Can be ridden on day of application.**
- **The more you use it the better effect and better the footing.**
- **Environmentally safe, Non-Toxic, Non-Hazardous & Non-petroleum**
- **Many uses including indoor & outdoor arenas, round pens, roads, paddocks or any area that has a dust problem**

#### **DIRECTIONS:**

- To apply WaterFREE ARENACLEAR, all you need is any type of equipment that is capable of spraying water. WaterFREE ARENACLEAR will not damage this equipment or leave any mess.
- Spray the product onto your arena surface at a rate of (I would recommend 30 SF/ gal.) 30 sq. ft per gallon. (example - 10,000 sq. ft. will require 330/gals of WaterFREE ARENACLEAR.
- Apply and ride. There is no cure time for WaterFREE ARENACLEAR and DOES NOT NEED WATER to remain effective.
- Initial application will last at least 12 months, repeat applications can be applied at a rate of 100 sq. ft. per gallon.
- Each application of WaterFREE ARENACLEAR is cumulative and works deeper into the riding surface, thus giving you longer dust control and saving you time and money.

#### **INGREDIENTS:**

WaterFREE ARENACLEAR is a patented product, however, it is a non-petroleum, non-toxic product that is produced from NATURAL gas. We use GTL (gas to liquid) technology. 100% synthetic.

Manufactured exclusively for: TRC & Associates, Inc. (877) 562-8147
